
We Help Students and Families Navigate the College Search Process

The college admissions process has become stressful and complicated, not just for teenagers, but for their families as well. Magellan College Counseling helps students and families explore, prepare for and apply to the colleges that fit them academically, socially, emotionally and financially.

Part of the frustration in the college application process is knowing where to start and how to proceed. Many teens also wait until the last minute to get started, missing opportunities to be admitted to great colleges – sometimes with great scholarships! **That's why we take an early, organized approach to minimize their stress – and yours.**

Beginning as early as the 9th grade, we work one-on-one with high school students to help them select their classes, find and apply to summer programs, optimize their extra-curricular activities and discover their passions. **All of these factors impact their college applications.**

*Magellan's counselors work with clients in person in the **Los Angeles** area and remotely with students across the country.*

Magellan helps students in these ways:

- ★ **Guide students** as they explore college options
- ★ Help students **build and present the most advantageous** college application package
- ★ **Organize** the process with tasks and timelines
- ★ **Detailed** application and **essay review**

Professional. Ethical. Experts.
